Innovative lining boards and decorative mouldings for a superior finish.

Achieve the perfect finishing touch with minimal effort and cost

Eco Lining

Eco Lining is a range of innovative lining boards and decorative mouldings that are attractive, user friendly and quick to install. Manufactured from a plantation grown hardwood called Paulownia, Eco Lining is easy to work with and durable.

Coating

The range of lining boards and mouldings are pre-finished and coated with two coats of oil based polyurethane to enable the product to be installed quickly with no need to sand or varnish, whilst keeping the product looking great and maintenance free for years to come.

Colours

Eco Lining is available in three prefinished natural colours which add a stylish timber look and feel to any indoor or outdoor ceiling application.

Summer

Autumn

Spring

Applications

• Feature ceilings

• Alfresco areas
